

In a meeting, your task is to hand out and explain the data below.

Background: Your manager asked you to do a survey on consumer preferences. Here were the questions you asked:

- Do you love chocolate?
- Do you prefer milk or dark chocolate?
- How often do you buy chocolate?

You did an online survey and 320 people responded. Here are your results. Explain the highlights, not every detail. When you finish, ask if there are any questions. Aim for a maximum of 500 words. Use a PDF file format.
